

Italy student visa from Pakistan

The file, the funds and the appointment — on two pages.

Last checked September 2026. Requirements change — confirm against the consulate before you rely on any figure here.

€10,179.85 funds to show, per year	30 Nov 2026 visa deadline, AY 2026/27	Islamabad where you apply	8 days to get your permit on arrival
--	---	-------------------------------------	--

The funds figure changed. The MUR and MAECI circular for 2026/2027 and 2027/2028 raised it from €6,947.33 to €10,179.85 — about 46 per cent in one step. Guidance written before 2026 understates it by roughly a third.

The order it happens

- 1 Pre-enrol on Universitaly**
The government portal, separate from your university application. Nothing else can start without it.
- 2 Get your Declaration of Value, or CIMEA**
Ask your university which one it wants before you pay for either. They come from different bodies on different timelines.
- 3 Attest your documents**
IBCC or HEC first, then MOFA. The order is fixed and the chain must be finished before the Declaration of Value.
- 4 Build the funds trail**
Not a balance — a history. Start this earliest of all.
- 5 Book the appointment in Islamabad**
Slots run out. Book as soon as the file allows.
- 6 Attend, with biometrics**
Take originals and copies, tabbed in checklist order.
- 7 On arrival: permit and tax code**
Permesso di soggiorno within 8 working days. Codice fiscale before you can rent, bank or register with a doctor.

Document checklist

- | | |
|--|---|
| ☐ National visa application form | ☐ Declaration of Value or CIMEA |
| ☐ Passport, valid for the stay | ☐ Proof of accommodation |
| ☐ Passport photographs to spec | ☐ Health insurance for the full stay |
| ☐ Universitaly pre-enrolment confirmation | ☐ Proof of funds, with history |
| ☐ University admission letter | ☐ Sponsor affidavit and their income proof |

- ☐ Attested academic documents
- ☐ Return or onward travel where asked
- ☐ Translations

What the officer is actually checking

- History. Six months of statements beats one large recent deposit.
- Source. Salary, business income or rent – traceable. Unexplained cash deposits are the classic failure.
- Consistency. A declared family income that could not produce the balance raises the question you do not want asked.
- Sponsor fit. A parent needs the least explanation. Anyone else needs more.

Why files get refused

- Funds that appeared shortly before the appointment.
- Money with no traceable source.
- Missing or wrong recognition document – Declaration of Value where CIMEA was needed, or the reverse.
- A study gap left unexplained. Account for it plainly; gaps are normal and silence is not.
- Starting late. Attestation and the Declaration of Value run on other people's timetables.

In September 2026 the Italian Embassy in Islamabad reported an unprecedented surge in forged or dubious documents, mostly around proof of funds. A fake document does not only fail this application – the embassy said it may count against future ones.

Want us to check your file before you book?

We work with Pakistani students applying to Italy and France. The first consultation is free, wherever you are in Pakistan.
